2Q25 Update (Nasdaq: BHRB)

July 2025

Cautionary Statement Regarding Forward-Looking Information

This communication contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, with respect to the beliefs, goals, intentions, and expectations of the Company regarding revenues, earnings, earnings per share, loan production, asset quality, and capital levels, among other matters; our estimates of future costs and benefits of the actions we may take; our assessments of expected losses on loans; our assessments of interest rate and other market risks; our ability to achieve our financial and other strategic goals; and other statements that are not historical facts.

Forward-looking statements are typically identified by such words as “believe,” “expect,” “anticipate,” “intend,” “outlook,” “estimate,” “forecast,” “project,” “will,” “should,” and other similar words and expressions, and are subject to numerous assumptions, risks, and uncertainties, which change over time. Additionally, forward-looking statements speak only as of the date they are made; the Company does not assume any duty, does not undertake, and specifically disclaims any obligation to update such forward-looking statements, whether written or oral, that may be made from time to time, whether because of new information, future events, or otherwise, except as required by law. Furthermore, because forward-looking statements are subject to assumptions and uncertainties, actual results or future events could differ, possibly materially, from those indicated in or implied by such forward-looking statements because of a variety of factors, many of which are beyond the control of the Company. Further, factors identified herein are not necessarily all of the factors that could cause the Company’s actual results, performance or achievements to differ materially from those expressed in or implied by any of the forward-looking statements. Other factors, including unknown or unpredictable factors, also could harm the Company. Accordingly, you should consider all of these risks, uncertainties and other factors carefully in evaluating all such forward-looking statements made by the Company and not place undue reliance on forward-looking statements.

The risks and uncertainties that could cause actual results to differ from those described in the forward-looking statements include, but are not limited to, the following: costs or difficulties associated with newly developed or acquired operations; changes in general economic, political, or market trends (either nationally or locally in the areas in which we conduct, or will conduct, business), including inflation, changes in interest rates, market volatility and monetary fluctuations, and changes in federal government policies and practices, as well as the impact from recently announced and future tariffs on the markets we serve; increased competition; changes in consumer confidence and demand for financial services, including changes in consumer borrowing, repayment, investment, and deposit practices; changes in asset quality and credit risk; our ability to control costs and expenses; adverse developments in borrower industries or declines in real estate values; changes in and compliance with federal and state laws and regulations that pertain to our business and capital levels; our ability to raise capital as needed; the impact, extent and timing of technological changes; the effects of any cybersecurity breaches; and the other factors discussed in the “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” section of the Company’s Annual Report on Form 10-K for the year ended December 31, 2024, the Company’s Quarterly Reports on Form 10-Q for the quarter ended March 31, 2025, and other reports the Company files with the SEC.

Non-GAAP Financial Measures

This presentation contains certain financial measures determined by methods other than in accordance with accounting principles generally accepted in the United States of America (“GAAP”). Such non-GAAP financial measures may include the following: fully tax-equivalent net interest margin, core operating earnings, core net income, tangible book value per common share, total risk-based capital ratio, tier one leverage ratio, tier one capital ratio, and the tangible common equity to tangible assets ratio. Management uses these non-GAAP financial measures to assess the performance of the Company’s core business and the strength of its capital position. Management believes that these non-GAAP financial measures provide meaningful additional information about the Company to assist investors in evaluating operating results, financial strength, and capitalization. The non-GAAP financial measures should be considered as additional views of the way our financial measures are affected by significant charges for credit costs and other factors. These non-GAAP financial measures should not be considered as a substitute for operating results determined in accordance with GAAP and may not be comparable to other similarly titled measures of other companies. The computations of the non-GAAP financial measures used in this presentation are referenced in a footnote or in the appendix to this presentation.

Appendix: Notes on Non-GAAP Financial Measures

Total Common Equity, Tangible Book Value & Tangible Assets: Tangible common equity measures are capital adequacy metrics that may be meaningful to the Company, as well as analysts and investors, in assessing the Company's use of equity and in facilitating comparisons with peers. These non-GAAP measures are valuable indicators of a financial institution's capital strength since they eliminate intangible assets from stockholders' equity and retain the effect of accumulated other comprehensive income/(loss) in stockholders' equity.

Appendix: Notes on Non-GAAP Financial Measures

Total Revenue: Total revenue is a non-GAAP measure and is derived from total interest income less total interest expense plus total non-interest income. We believe that total revenue is a useful tool to determine how the Company is managing its business and demonstrates how stable our revenue sources are from period to period.

Appendix: Notes on Non-GAAP Financial Measures

Net Interest Margin: The interest income earned on certain earning assets is completely or partially exempt from federal income tax. As such, these tax-exempt instruments typically yield lower returns than taxable investments. To provide more meaningful comparisons of net interest income, we use net interest income on a fully taxable-equivalent (FTE) basis by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on taxable investments. FTE net interest income is calculated by adding the tax benefit on certain financial interest earning assets, whose interest is tax-exempt, to total interest income then subtracting total interest expense. Management believes FTE net interest income is a standard practice in the banking industry, and when net interest income is adjusted on an FTE basis, yields on taxable, nontaxable, and partially taxable assets are comparable; however, the adjustment to an FTE basis has no impact on net income and this adjustment is not permitted under GAAP. FTE net interest income is only used for calculating FTE net interest margin, which is calculated by annualizing FTE net interest income and then dividing by the average earning assets.
